RE: Notification of Nutritional Support Statements

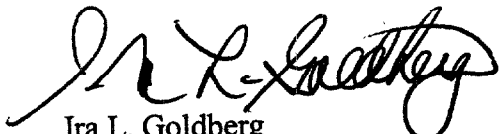

To whom it may concern:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Sytrinol, a dietary supplement. Source Naturals® is the manufacturer of Sytrinol.

Statements being made in the labeling of Sytrinol

- 1) Sytrinol may help to maintain cholesterol levels that are already within the normal range.
- 2) Contrary to popular belief, the amount of cholesterol produced by the liver is much more significant to total cholesterol levels than cholesterol consumed from dietary sources.
- 3) Preliminary clinical research shows that Sytrinol may assist in maintaining a balanced production of cholesterol by the liver.
- 4) Support your cholesterol wellness with Source Naturals Sytrinol today.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals® possesses substantiation that the statements are truthful and not misleading.
